I. Course Description:

AP World History is an intensive study of Human history from the dawn of civilization, up until the modern age. The first half of the year we will focus on the social/political/intellectual history of the World from the very beginnings of Human history up until the beginnings of the Renaissance. The second half of the year will focus on the development of the world from a factionalized and broken set of regional and individual powers, to the interconnected and co-dependent globalized World that we live in today. Special focus will be placed on the interactions of different cultures and how those interactions have helped shape the world we live in today. Upon completion of the course students will be given the chance to take the AP test which will enable them to receive college credit with a high enough score.

Pre-Requisites: 10th Grade, and Teacher/Counselor Recommendation

Unit I: Technological and Environmental Transformations, c. 8000 BCE to c. 600 BCE
Unit II: Organization and Reorganization of Human Societies, c. 600 BCE to c. 600 CE
Unit III: Regional and Transregional Interactions, c. 600 CE to c. 1450 CE
Unit IV: Global Interactions, c. 1450 CE to c. 1750 CE
Unit V: Industrialization and Global Integration c. 1750 CE to c. 1900 CE
Unit VI: Accelerating Global Change and Realignments c. 1900 CE to present
Unit VII: Test Review
Unit VIII: Capstone Project

II. Historical Themes

Throughout the course of the semester we will be examining the history of the world through the five following themes. By looking at the five themes it is possible to make connections and find patterns between societies and peoples from different eras and regions that will give us a better understanding of history as a whole.

- Theme 1- Interaction between humans and the environment
- Theme 2- Development and Interaction of Cultures
- Theme 3- State-Building, expansion and interactions of Economic Systems
- Theme 4- Creation, expansion and interactions of Economic Systems
- Theme 5- Development and transformation of social structures

III. Course Standard:

Students will be able to examine Western development through the following techniques…

1. Crafting Historical Arguments from Historical Evidence – Students will be required to develop and solve historical problems using materials from primary and secondary sources from a variety of perspectives. Students will need to organize information from these sources in project based assignments (such as Venn Diagrams and Charts), as well as in essay form (such as a historiography paper or compare and contrast paper).

2. Chronological Reasoning – Still will identify, analyze, and evaluate their thinking in ways that will allow them to see short term effects, causes, relationships/connections, and long –term
impacts. Throughout the course of the year there will be formal and informal assessments (mostly paragraph responses and in class discussions) to check for their understanding of the connections between different events.

3. **Comparison and Contextualization** – Students will look at a variety of global societies and be able to make comparisons within the society or with different societies in different chronological or geographical contexts. Students will use primary and secondary source readings about the society, as well as maps that show the growth of the society, to answer essay style questions or discuss in small group and class debates.

4. **Historical Interpretation and Synthesis** – Using primary and secondary sources students will be able to describe, analyze, and evaluate their own historical interpretations based on the analysis of historical evidence. They will demonstrate their ability to do this in their final project in which they will need to answer a historical based question.

**IV. Evaluation:**

**Class work / Homework**

**Homework**
- Handed In – Assignments will periodically be collected to be graded
- Homework Checks – Teacher will do visual check to ensure completion
- Essays – Students will get practice writing a variety of essays including Change over Time, Compare and Contrast, Document Based Questions, and Thematic.
- Group Work – Students will be required to work together to solve historical based problems and present their findings through the use of different mediums.

**Class work**
- In Class Assignments – Students will be required to do assignments in class that will checked for completion, or collected and graded
- Class Discussions – Periodically there will be classroom discussions. Students will be graded based on participation in discussion. Students will need to use materials from relevant readings to support arguments.

**Tests/Quizzes**
- Document Based Question – A Test where a student will be forced to use prior information along with information from provided documents to answer a question.
- Free-Response Question - Students will be given a selection of essay style questions in which they will have to answer either a thematic, compare/contrast, or change over time essay.
- Multiple Choice – Students are given a choice of responses, in many cases more than one of the choices may be correct. In this situation students will need to come up with a most correct answer.

**Participation**
- Much of the class will be organized around classroom discussions based on the previous day’s reading assignment. Failure to do the reading will limit your ability to participate in classroom discussions and negatively impact your grade.
- Contribution – Students need to be engaged in class activities. Students will benefit by being involved with discussions, answering, and asking questions.

**Final Project**
- At the end of the year students will be completing a cumulative project in which they will have to use historical evidence to solve and defend their answer to the following question “Which person, event, or idea was the most influential in the shaping of the modern world?” Students will be required to present and defend their findings orally in front of the class, and in a written essay.

V. Course Requirement:

Academic Dishonesty/Cheating/Plagiarism
- Any students caught cheating, or attempting to cheat, will be given an automatic zero on the assignment. Further action may be taken depending on the situation.

Absences
- Students are responsible for making up all missed class time. Notes can be copied from other students in class, but feel free to see teacher with and questions. Any missed assignments need to be completed within two days of a student’s return from an absence unless told otherwise by the teacher. If student happens to have been absent during a test day they are responsible for scheduling a time to take the test.

Dropping/Withdrawing
- Students who are having trouble meeting the expectations of the class may withdraw at the end of a quarter or at the semester break. Students only may drop after meeting with the teacher and their academic advisor to discuss whether it is possible to remain in the class.

Late Work
- Late assignments will be deducted 25% after the first day, and 50% after the second day. After the second day the students will not get credit for the missing assignment.

Tests/Quizzes
- The format of the tests will follow sections of the AP Exam as much as possible. Tests will be a way to measure the students’ mastery of the materials and help prepare them for the AP Exam.

VI. Primary Textbook and Reader:

VII. Additional Textbooks and Readers:
- Additional readings and atlases will be assigned throughout the course of the year.
**VIII. The AP Exam:**
The AP Exam is based on college-level course content. Students are to demonstrate knowledge of all materials in a variety of ways. The exam is scored on a 1-5 scale, with a three being the minimum passing grade. Students who achieve a satisfactory mark on the AP test may be eligible for college credit (depending on their chosen University).

The Exam is divided in the following way:
