

Biogeography

Before They

Name:

Section:

Score: ____/ 5

Directions: Choose a species of animal that you think deserves to be protected. Go out in the zoo to try to capture a picture of that animal (or use an image from the photo ark if available - or the wider internet if necessary) and design an informational flyer with the requirements below.

Topics to Include:

- Species Common and Scientific Names
- Photo of the animal
- Map of the animal's range (Scaled to be descriptive)
- Conservation Status and Current Population Trend
- Reason for their status
- 3 to 4 Sentence Blurb why they are worth protecting
 - o Talking about their ecological importance
 - o Connect in potential changes to landscape (Some might need to consider trophic effects)
