

Psychology

Existentialism

Leveled Assessment ____/4

Name:

Section:

Score: ____/5

Directions: Watch the video clip John Paul Sartre and the Existential Choice (linked on the course website) and answer the following series of thought questions.

Thought Questions:

1. How does Existentialism complicate the idea of who we are as people?
2. How does Existentialism complicate the idea of what humanity is?
3. How are our own thoughts a burden and a monumental shift in our own ideas of self?
4. Research to find out what an existential crisis is and give an example of a scenario that might lead to one.
5. How can the study of psychology actually be described as one large existential examination?
