

## Human Geography

Korean Peninsula at Night

Name:

Section:

Directions: Use the map below to work with your partner and come up with 5 differences between North Korea and South Korea (Not just North Korea does not have as many lights).

Make 5 inferences about North Korea and South Korea based on the above picture of the Korean Peninsula at night taken Jan 30<sup>th</sup>, 2014 by NASA. (Think about things such as educational systems, access to resources, medical care, etc...). Be prepared to explain and defend your answer.
