

## Behavioral Science

### Profiling a Researcher

Directions: Complete the following Think-Pair-Share activity about the characteristics that are necessary in order to be a researcher.

Think - Come up with a list of 10 personality characteristics that you think might be helpful/beneficial to a researcher.

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

Pair - Come together with another classmate and make a master list of the characteristics you both came up with. Rank the top 5.

Share - be prepared to share and defend your characteristics with the class.

Reflect - Which of the characteristics do you feel like is one of your strengths? How can you use that strength to contribute to your ability as a researcher?

Reflect - Which of the characteristics do you feel like you most need to work on? How can you go about doing that?
