

# Reading A Cultural Landscape

Descriptions: Use the two tables below to help establish the unique combination of physical and human characteristics that distinguish the idea of Place for your community. Use the first column to IDENTIFY a particular feature that can be seen in the landscape and then DESCRIBE what that feature signifies about the community (ex. A Lutheran Church that signifies the importance of religion to the community and the Germanic heritage of its people).

## Sense of Place

Directions: EVALUATE one of the features you identified above and how the significance of it for you may be different than for someone else. (ex. A park that you frequently went to as a child with your friends is going to have a different meaning than someone who just passes by it every day).
