World Environmentalism

The "Haves" and the "Have Nots"

Name:

<u>Instructions</u>: Answer the following question to the best of your knowledge and opinion in preparation for next class' discussion.

- 1. In your opinion what is the single largest environmental determinant as to whether a state or region will be successful? (Please put your answer as a complete sentence)
- 2. Explain your reasoning. Why would you say that that is so important in deciding the success of a state or region?

3. Find data or an example to support your reasoning and central argument. Explain how the data/example helps prove your point.
